

Can YOUR Life Skills Program Do THIS?

1. Measure knowledge gains and show statistically significant results?
2. Leverage evidence-informed design?
 - Use brain-based learning methods to maximize knowledge retention
 - Leverage principles of neuroscience to promote positive change
3. Provide a holistic life skills education, including a trauma-informed approach to social-emotional skills?
4. Meet the unique needs of dual-system adolescents?
5. Conform with federal and/or state Section 508 accessibility requirements?
6. Provide content for Spanish EASL speakers?
7. Provide a structured method to retain knowledge and provide continuous skill improvement?
8. Track and report each learner's progress and completion?

Use in

That Learners Like

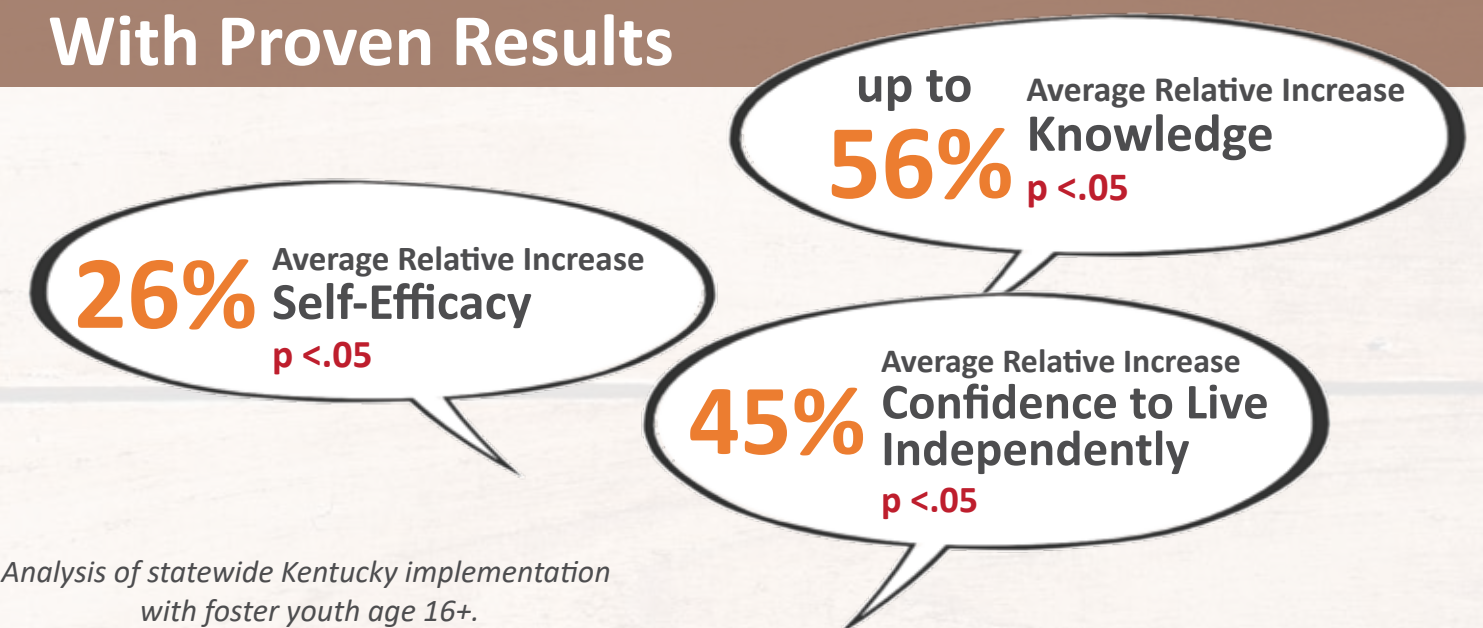

I absolutely 100% love LYFT ... it's innovative, it's fun ... it's animated, it's interactive.

Our kids absolutely love the program.

The feedback has been great!!! ... My staff is very excited about this.
